Video Conferencing

Office of Online and Professional Engineering Programs provides videoconferencing services
Call- 333-6634. http://online.engineering.illinois.edu/

NCSA provides videoconferencing services.
Users can contact eventservices@ncsa.illinois.edu or make a request here:
http://events.ncsa.illinois.edu/
'Service descriptions and more information'
http://www.ncsa.illinois.edu/AboutUs/Facilities/events.html

Chemistry has videoconferencing facilities
(contact wallbaum@illinois.edu)

Psychology has videoconferencing facilities
(contact psych-vidconf@cyrus.psych.illinois.edu)

Alternatives to Video Conferencing

Elluminate
An alternative to videoconferencing to consider is Elluminate, which is gaining popularity on campus because of ease of use (no special equipment is required).

Elluminate Live! is a real-time (synchronous) web conferencing tool. With Elluminate, you can dynamically interact with others using instant text messages or two-way voice. Elluminate also provides whiteboard tools enabling collaboration between users, including sharing your desktop applications, and uploading PowerPoint presentations.

For more information on Elluminate, please contact the OCE Learning Technology Services Team at learningtech@illinois.edu. http://www.oce.illinois.edu/Services/Technology

NOTE: Elluminate Live! was recently acquired by Blackboard. Therefore, during the transition, Elluminate pages will contain either the name Elluminate Live! or Blackboard Collaborate.

CITES offers H.323 video conferencing bridge as part of its e-Conferencing service
http://www.cites.illinois.edu/econferencing/

This service is jointly run with ACES. CITES plans to retire this service once UC Lync conferencing goes production.

CITES installation of the Cisco MeetingPlace video, web and audio (teleconferencing) service.

Jan. 13, 2012
CITES is also beginning to roll out Lync on the University of Illinois campus.

For external participants, they have two options:

If you'd like more information on Lync to see if it would be appropriate for your users, contact Joseph Tek Yun, CITES CRM Consultant & OnSite Manager, (Special Assignment: Unified Communications Program Outreach & Communications Manager)  jtyun@illinois.edu  217-333-8178

Unified Communications Website:
